Hannah,

Yes, that refers to the Gehrke Rd, actually Green Point, group. 35 were invited and 17 showed up plus Dave Hannah was there to answer questions on bluff stability. Of the 17 only one was aware of SMP or said they had been contacted about forums. Not sure if they were overlooked in the mailing or notices but that was the response I got.

MG

Hi Michael,

Just catching up after the long weekend.

To answer your questions:

We are receiving a variety of opinions, thoughts and concerns from the public. Not an overwhelming response overall.

It's great that you've met with the Gehrke Road community.

We have had a variety of responses to from the public via: recorded at forums ; feedback forms available at the forums; website comment box; email; and written and mailed in comment letters (these I scan and make into pdf's). The comments are separated into topic (general; Consistency Review; WRIA 20 Characterization & Inventory; etc.,) and will on-line within the next couple of weeks.

I'm not sure what you mean about the group of 20 we met with... that only one received the notice... is that the Gehrke Rd folks? So I haven't determined why, not sure about who you mean.

Thank you,
Hannah

Hi Hannah,

Thanks for the notice. Have you been able to determine what kind of response you are getting from the public? Are all the comments available online? I'm interested because we had a Gehrke Rd. community meeting and I was able to get comments from my neighbors, many who don't have or regularly use email. I'm wondering how you are getting those comments. Also, I reported to Steve and Sheila only one of the group of 20 we met with had received notices like this. Can you determine why?

Thanks,
M. Gentry
