Subject: Public Input for SMP Update

Hannah,

Please add my comments to the Public Input for the SMP update.

Thank You,
Terri Walker

Public Input on SMP Update

The SMP should be rejected in all its forms. It erodes our rights and freedoms, does not comply with and is in fact contrary to the Constitution, is poorly written, poorly organized, vague, and its objectives are ambiguous/obscure. If the State Agencies and current elected officials wish to ignore the will of the people and the State Constitution, why aren't they up front and honest about their intentions and goals of total control? Because it wouldn't fly if they were honest about it, and they know it.

Clallam County needs to follow the minimum standards of the State Law and the spirit of the State Constitution, reject in total the NNL Policy, reverse the SMP overreaching in regards to setbacks and buffers, provide access to the huge amount of publicly owned shorelines of Clallam County, reverse any trend toward forced public access on private property, and quit spending an enormous amount of State revenue on this systematic assault on the private property rights of the State's Citizens. There also needs to be an investigation of the huge amount of funds that are currently being squandered on the 'pretext' of saving the environment and the planet.
