Hello,

The attached comments are late, but hopefully they may still be considered. Thanks,

Jesse Waknitz

MEMORANDUM

To: Shoreline Master Program Update, Clallam County
From: Jesse Waknitz, Port of Port Angeles
Date: June 2, 2011
Subject: Clallam County SMP Consistency Review – Comments

The purpose of this memo is to provide comments on the SMP Consistency Review provided by the Clallam County. Original SMP Consistency Review Sections and Text are shown in **bold**. Port of Port Angeles comments are shown in *italics*.

Comment 1. Page 27 of 37; Ports and Water-Related Industries (Section 5.10)

- **~~Prohibit~~ *Limit* log storage in marine waters or tidelands. Require that storage occur on land except when not feasible.**

Revising this section by replacing “Prohibit” with “Limit” maintains consistency with subsequent bulleted items in this section and allows for log storage in aquatic lands to be regulated by the Shoreline Master Program and WADNR through the Aquatic Lands Act.
