SMP COMMENT

## CLALLAM COUNTY SHORELINE INVENTORY AND CHARACTERIZATION REPORT

### SMP TAKING OF MARINE SHORELINE PRIVATE PROPERTY FOR PUBLIC ACCESS PUBLIC OWNERSHIP OF CLALLAM COUNTY MARINE SHORELINE

**Based on their own Shoreline Inventory, shown below,** the need for public access is not caused by private property ownership, but is in fact, **the lack of Public Access provided by WA State and Clallam County on publically owned land.** I find the documented information on public access, incomplete, vague, confusing and non specific.

The **Clallam County SMP update** requires private property owners to give public access to their privately owned marine shorelines, prior to permitting development. They require private property owners **to prove** that giving public access is not feasible, prior to permits being issued.

The George C. Rains Sr. Trust has been the **victim of the public's abuse** on their private property for **over 60 years.**

Including, but not limited to, **theft, vandalizm, littering, dumping, illegal campfires and discharge of firearms.** Tens of thousands of dollars in damage and theft, and hundreds of hours cleaning up and packing out garbage.

Pearl Rains Hewett Trustee  
George C. Rains Sr. Trust
