SMP COMMENT ON CONTAMINATED SITES

WRIA 17-19 SHORELINE INVENTORY AND CHARACTERISTICS

On the 18 Marine reaches

Contaminated sites

they found (3)

On the 64 Freshwater reaches

(that I counted)

Contaminated sites

- (1) contaminate site on the R3 Dungeness,
- (Several) on R1 Elwha (how many is several?)
- (2) on the R2 on the Hoko.

With all of the SMP concern about contaminated sites
These are the FACTS

Why is Green Crow the only contaminator mentioned by name?

We should be given the **exact location** of every specific contaminated site and
the **full identity of EVERY contaminator.**
