Comments: I have attended a SMP meeting and reviewed the map where our property is located. It lists it as a slide area although for the past 32 years we have had no indication of any land movement or building shift. Another comment for the record. The land is noted as "no division". I have made inquiry into the restriction of this designations as we are looking at alternative ways to stay in business as the transient use of the Sekiu/Clallam Bay area is drastically diminished. We want to keep our doors open as this family business is our livelihood. We would like to note that our strategy is to not change our footprint and would be consistent with the permitted uses in the UC zone. Please keep me on all SMP mailings as I will need to attend as many meetings as possible to stay in the informational loop when working with my property as the SMP moves forward with changes that might impact us.

Thank you, Jamye and Lloyd Wisecup
