Subject: SMP SED Update

TO WHOM IT MAY CONCERN

More control of private property?

My comment for the SED SMP Update

Pearl Rains Hewett Trustee
George C. Rains Sr. Estate
Member SMP Advisory Committee

If the original SED wheel had five spokes? And, it worked for Clallam County.
Why allow ESA compliancy experts Margaret Clancy and Jim Kramer to reinvent it?
If it isn't broken don't fix it!

Who are they? Those that are demanding that ESA make the SED even more specifically regulated and controlled by WA State DOE?

Is it the intent, of two Elected County Commissioners, that total control of all private property in Clallam County, be given to the Federal Government and the WA State DOE, one way or the other?

Elected DCD Sheila and Commissioner Mike Chapman have both spoken out against more layers of regulation.

The inventory and characterizations report does not give an accurate summary or description of the physical characteristics of Clallam County. Both the written reports and maps are seriously impaired.

Elected DCD Sheila and the working members of Clallam County Planning Dept know the true and accurate inventory and characteristic's of our County.

The SMP SED Update should be written, **to allow the maximum legal control, of our private property, be left to the discretion of Elected DCD Sheila Miller and Clallam County Planning Dept.**
