**Subject:** THE MOST UNSCIENTIFIC PARTS OF THE DOE CLALLAM COUNTY SMP

## TO WHOM IT MAY CONCERN

I submit this as my comment  
Pearl Rains Hewett Trustee  
George C. Rains Sr. Estate  
Member SMP Advisory Committee

### **THE MOST UNSCIENTIFIC PARTS OF THE DOE CLALLAM COUNTY SMP**

**ARE**, that even with DOE'S 1616 employees and a billion dollar budget.

**DOE doesn't have a single analyst capable of compiling and reporting the most important documented/published scientific statistics provided by**

**The Clallam County Inventory and Characteristic reports.**

**DOE is incapable or unwilling to provide documented/published scientific evidence on how the Clallam County SMP from 1976-2012 has failed to protect NNL of ecological function?**

**DOE is incapable or unwilling to provide documented/published scientific evidence on why they are demanding wider setbacks and buffer zones to protect NNL of ecological function?**

**DOE is incapable or unwilling to provide the names and locations of the contaminator and impairers. Were ANY of the contaminated or impaired sites caused by? or a result of? Clallam County 1976-2012 SMP failure to protect NNL of ecological function?**

**DOE is incapable or unwilling to provide documented/published scientific evidence on how many single family residence were destroyed by rivers or tidal action as a result of? or caused by? or failure? of Clallam County 1976-2012 SMP?**

**DOE is incapable or unwilling to provide documented/published scientific evidence on how many ecological disasters occurred as a result of? or caused by? or failure of? Clallam County 1976-2012 SMP?**

**DOE is incapable or unwilling to provide documented/published scientific evidence on how many injury's or deaths occurred as a result of? or caused by? or failure of? Clallam County 1976-2012 SMP?**

### **Clallam County 1976-2012 SMP is NOT BROKEN**

**UNTIL the DOE can prove that it is, with documented/published scientific evidence, "We The People" should not be required to FIX IT!**
