**Subject:** CLALLAM COUNTY- NEGLECT OF WIRA 20 SMP PRIVATE PROPERTY OWNERS

TO WHOM IT MAY CONCERN

I submit this as my SMP comment  
Pearl Rains Hewett  
Member SMP Advisory Committee

WRIA 20 SMP NEGLECT OF PRIVATE PROPERTY OWNERS

After listening to the Public Comment's by Ed Bowen on WRIA 20 at the April 24, SMP Advisory meeting, it is time for some **local government accountability** on their neglect of the WIRA 20 SMP private property owners.

I invited Ed to my house for a cup of coffee after the SMP meeting.  
Ed and I talked about WRIA 20 SMP private property owners concerns from 4:00-11:30 pm on April 24, 2012. **YES, for seven and a half hours.**

The following is my understanding.

Commissioner Mike Doherty is their elected representative?

Commissioner Mike Doherty travels to the West end every Wed. as their representative?

A woman from the University of WA. is responsible for the WIRA 20 SMP Shoreline Inventory and Characteristic report?

The West end does not have SED maps?

ESA is not responsible for WIRA 20.

Who is responsible and accountable for the neglect?

**read on if you are interested**

The written summary of the April 27, 2012 SMP Advisory meeting **indicates the concern, (of someone? me, Pearl Rains Hewett) on the LACK of SMP Update representation of the West end, it was written as.**

May need additional tools for certain reaches of WRIA 20 based on differences of riparian and watershed conditions and limited development pressures.

**PLEASE feel free to use my name.** I have repeatedly questioned the LACK of representation of the WRIA 20 private property owners on/at the SMP Advisory meetings! Historically my comments about the West end neglect, have not been on the summary of SMP meetings. Nor, have other comments like, **"They don't want any!"** been reported on the summaries.

**SMP Comment Sent:** Friday, July 08, 2011 5:32 PM

**Subject:** TAKING PRIVATE PROPERTY FOR FRESHWATER SHORELINE PUBLIC ACCESS

To Whom it may Concern

I appreciate the format used for both the Freshwater and Marine water **Shoreline Inventory and Characteristic**, it is understandable, easy to review and for the most part accurate.

**(the West end reports are a nightmare)**
