Subject: Shoreline Master Program

Comments: We believe our property at [REDACTED] Marine Dr. Sequim, which is within the protection of the Dungeness Spit, should be labeled as a bay shoreline and exempt from the label of a feeder bluff. Neighboring properties within the Dungeness Spit should have the same title. We also request that Marine Dr. is made a one lane road with no through traffic, to other than our parcels, to heavy equipment, heavy trucks, and heavy motor homes. We request the northern lane of Marine Dr. be designated as a bike/walk lane only. We also request that the ditches in front of our houses be dug deeper to encourage rain water to be held back from the bluff which may discourage the bluff from breaking away. We would also love to see protection installed at the base of the cliff (logs or rocks) to protect the bottom of the cliff from erosion. If there is a low growing plant that can be planted to hold the bank in place, we would help plant it. Thank you so very much for considering this other labeling. Danny and Sherre
