Subject: Shoreline Master Program

Comments: I participated early in the public comment phase of the SMP update process. I have been directly affected by a shoreline development that was allowed by Clallam County, but which in fact was illegal under existing state and local codes and the current SMP. In reviewing the draft SMP, I note several areas that if not changed will allow exactly the same set of conditions I described to occur again.

As a result, I am currently reviewing the current draft and will submit extensive comments and recommended changes to the draft in the very near future and in advance of the public hearing scheduled for December 11, 2012. If there is a comment schedule that I must meet, please advise me of that schedule. Thank you. Scott Lange
