Subject: DNR Reconnaissance ON LAKE SUTHERLAND Jan. 2011

Comment on SMP Update
Pearl Rains Hewett Trustee
George C. Rains Sr. Estate
Member SMP Update Committee

After nearly two years, the white Reconnaissance boats on Lake Sutherland have been identified.

DNR Reconnaissance Data Lakes in Washington State

Trophic Classification of Washington Lakes Using Reconnaissance Data,

Over Water Structures (Lakes) on State Aquatic Lands

The WA State DNR Spatial Data Base

Use constraints:

The data is intended for agency use only. Copies of the data may be given to other agencies so long as there are sufficient disclaimers about the accuracy and completeness of the data.

While these documents on the DNR spatial GIS system ARE available, the public is DENIED access?

Three Elected State and three County Officials have refused to answer ALL QUESTION on Lake Sutherland's White boats, Ariel Surveillance and trespass on private property from Jan 27, 2011 to Dec. 17, 2012.

While the Federal GIS Spatial Data base for

The Delineation of WETLANDS for the United States was available Dec. 11, 2012 AND the Federal GIS Spatial Data GIS base for the identification of WETLAND PLANTS was available Dec. 11, 2012

NOT one person at the Dec. 11, 2012 SMP Committee Meeting would respond to my questions on the WETLAND designation in Clallam County.

Why? is and has, all of this FEDERAL AND STATE GIS Spatial Data been denied and withheld from the citizens of Clallam County?

Why does a private citizen have to investigate, document and disseminate this?

I am requesting your assistance into an investigation into this failure to disclose public information to the citizens of Clallam County.

Reconnaissance Data on Lakes in Washington, Water Supply Bulletin 43 -- December 2012	(1.92MB)	ESRI .mdb
Trophic Classification of Washington Lakes Using Reconnaissance Data, Water Supply Bulletin 57 -- December 2012	(1.32MB)	ESRI .mdb
Kelp Monitoring Data -- June 2005	(40.0 MB)	ESRI .shp
