**Subject:**

Steve Gray - I was given your name by Scott Gordon over at Schwab Realty as the person to give

input to the pending revised set backs on Clallam County bluffs. I've lived over 4 years on the high bluffs

in The Bluffs development off of Gasman road ([REDACTED] West Bluff Drive), and have experienced nearly a foot

of lost land during that time. With rising sea levels and stronger storms pending the next few decades, I would

suggest at least 250 foot setbacks from cliff edge. I have a land survey done by Kenneth D. Gilbertson done

for my property if you would like to read. Also, please call or write back if you would like to discuss further.

Thanks.
