Hi Hannah,

Sorry I couldn't make it to the latest SMP focus group but I developed a conflict with higher priority. Please let me know of any other such meetings in the area.

I did talk briefly with Cathy Lear at a recent DRMT meeting about the issue of a changing shoreline. Both of us didn't know how to deal with this without further thought if this is to be documented in some fashion. It is interesting to view the changing Dungeness River and the bay with new spits being formed and beaches eroding.

In another subject, does your group have any sway with the road dept.? About a year ago someone from the road dept. stated that they saw no need to keep the culverts under E. Anderson road free of debris. With the recent flood event when these culverts were carrying water, it would seem like this policy needs revision to avoid any damage to the E. Anderson road bed when the river floods.

Thanks,  
Robert Brown
