RE: Reality Unhinged - Letter

TO the Editor
(Now to the SMP Update Comments)

Obamacare is a massive expansion of government dysfunction imposed by the Democrat Party.

The Shoreline Master Plan Update is a massive expansion of government dysfunction imposed by a puppet agency of the Democrat Party.

The Dungeness Water Rule is a massive expansion of government dysfunction imposed by a puppet agency of the Democrat Party.

We have a small well-organized minority who are seeking to rule rather than represent, imposing their dysfunctional policies upon an unsuspecting majority. The radical Democrat Party have morphed into a hybrid of socialism, fascism, and globalism. We have the propaganda (media) branch of the Democrat Party, which uses whole cloth fabrication, deceit, distortion, omission, and indoctrination to totally insulate the Democrat authoritarian-leaders from accountability. Instead of being the arbiters and referees of news and information your local 'whale wrappers' have degenerated into unabashed partisan accomplices and flimflam artists.

We are in an unheralded economic crisis, not an environmental crisis. Yet the Democrats and the media are orchestrating the imposition of higher taxes, intrusive regulations, and redistribution of America's wealth, based on imaginary environmental crises. As Democrat authoritarian Rahm Emanuel said: 'A crisis is an opportunity to do things you would not otherwise accomplish'. We are experiencing "Grinding America Down"; **we are experiencing the fundamental change and destruction of the American Dream.**
