SMP Cumulative Impact on People

This is my Clallam County SMP Public comment and objection

comment code CIA – Cumulative Impacts Report

directed to Deputy Director Steve Gray and Planning Commission

on the Nov. 2014 Clallam County SMP Updated Draft

Pearl Rains Hewett

I have been researching documenting and commenting on the Clallam County Shoreline Management Plan Update since Jan.26, 2011.

I have 156 SMP Public Comments posted on the SMP website on **the CUMULATIVE IMPACT OF THE SMP UPDATE ON THE 3300 VESTED PRIVATE SHORELINE PROPERTY OWNERS IN CLALLAM COUNTY WA.**

But? Then? WHAT DO I KNOW ABOUT THE SMP UPDATE WEBSITE?

The vast majority of my **“CUMULATIVE IMPACT” SMP Public Comments on “We The People” have been posted and coded as “GENERAL COMMENTS?”.**

How could a thing like that happen?

The Nov. 2014 Clallam County SMP Updated Draft?

By his own admission to me, with no help from ESA facilitator, Margaret Clancy, **Steve Gray, Deputy Director/Planning Manager has completely rewritten, revised, altered, edited, expanded, reworded, and RE-DRAFTED the the Clallam County Shoreline Management Update.**

Steve Gray has presented two meetings of his Updated SMP RE-DRAFTED SMP to The Clallam County Planning Commission, ESA facilitator, Margaret Clancy, is assisting him.

I strenuously object to the hastily rewritten RE-DRAFTED SMP Update presentations of maps and language. Using the ESA consultants and ECOLOGY'S SUSTAINABILITY NO NET LOSS jargon,

Sometimes including a brief stop to mention the Advisory Committee

The SMP **GOBBLEDYGOOK** being presented, using more words than necessary, especially to avoid expressing it directly, to an ill-prepared Planning Commission, **goes far beyond the understanding of a reasonable person.** (why Lake Sutherland has a 35 foot setback)

THE OVERLAPPING MAPS? UNUSUALLY hard to understand THE SHALL AND MUST PROTECT of , 200 foot setback, the critical areas set-backs, plus the exceptional feeder bluffs, plus the flood plain, plus the rivers meander line, PLUS THE ASSOCIATED WETLANDS, plus the protected wetland habitat, and the mention of SEASONAL STREAMS...

UNUSUALLY, HARD TO UNDERSTAND HARD TO SWALLOW.

Obama Administration Is Writing Huge "Rule Change" to Take Private Land

The new rules and wording added to our Nov. 2014 Shoreline Management Update by Steve Gray indicate that it is a done deal... plus the associated wetlands, plus seasonal streams.

The changed suggested by the Army Corps of Engineers and the U.S.Environmental Protection Agency is being protested by the Pacific Legal Foundation, a group which has challenged water-related regulation before the Supreme Court — and won.

"On its face, the proposed rule covers virtually every water in the nation," PLF told the government in public comments, according to WND.

The understanding of a reasonable man? The intent of a party can be determined by examining the understanding of a reasonable person, after consideration is given to all relevant circumstances of the case including the negotiations, any practices the parties have established between themselves, usages and any subsequent conduct of the parties.

Why call it GOBBLEDYGOOK? in an SMP Update in ESA and ECOLOGY language characterized by circumlocution and the use of more words than necessary to express something, especially to avoid saying it directly.

And saying the word water, and more water, Indicates water, the movement of water, standing still water, the high water mark, failed to mention the difference between an SMP shoreline and the SMP shorelines of Statewide significance, past the taking of private property value, somebody, vested private property owners...

Sometimes including a brief stop to mention the mitigation process, so a vested Clallam County private property owner can use and develop his own private property.

Using the ESA consultants and ECOLOGY'S SUSTAINABILITY NO NET LOSS jargon

Sometimes including a brief stop to mention the Advisory Committee

And THIS IS really, really hard to swallow after spending over two years as a vested private shoreline property owner on the

Shoreline Master Program (SMP) Advisory Committee

MEMBER FROM first meeting April 11, 2011 to last April 9, 2013

But? Then? WHAT DO I KNOW ABOUT THE SMP UPDATE?

Shoreline Advisory Committee.

With 29 members include some (5) vested private Clallam County citizens, but most (24) members of the committee represent environmental and other advocacy groups or are paid staff of the Department of Ecology (DOE), Department of Fish and Wildlife (DFW) and Puget Sound Partnership. The Tribes, The Serra club, and NGO special interest groups.

The SMP Advisory Committee was under the direction of, E.S.A. Adfolson Consultants, Margaret Clancy and Jim Kramer. How could anyone forget to mention the Facilitators?

E.S.A. Adfolson Consultants had already COOKIE CUT 24 SMP UPDATES ACROSS WA STATE by the time they got down to their \$599,930 grant from Ecology's business on the Clallam County SMP Update.

COOKIE CUTTING 24 WA STATE SMP UPDATES?

ONE PREDETERMINED SMP PATTERN DOES NOT FIT ALL SHORELINES

SMP E.S.A. Adfolson Consultants Public Participation Meeting Jan. 26, 2011

The OXYMORON Public Participation Meeting by invitation only?

THEN ON TO THE MAIN EVENT

THANK YOU SMP COMMITTEE FOR YOUR TIME, DEDICATION and ATTENTION TO DETAIL, COMPREHENSIVE COMMENTS, EXTRAORDINARY EFFORTS, EXTENSIVE INPUT, and HARD WORK!

THE NEW November 2014 *draft* Clallam County Shoreline Master Program Update :

Prepared by The CLALLAM COUNTY SHORELINE **ADVISORY** COMMITTEE has been hastily completely rewritten, revised, modified, altered, expanded, reworded, SMP Update

Nov. 18, 2014

I strenuously object to the hastily rewritten SMP Update presentation of maps and language. The SMP gobbledygook being presented, using more words than necessary, especially to avoid expressing it directly, to an ill-prepared Planning Commission, **goes far beyond the understanding of a reasonable person.**

BUT THEN? WHAT DO I KNOW ABOUT THE SMP UPDATE?

November 2014 ... THE NEW *draft* Clallam County Shoreline Master Program Update :

Prepared by The CLALLAM COUNTY SHORELINE **ADVISORY** COMMITTEE?

With Assistance? by the CLALLAM COUNTY DEPT. OF COMMUNITY DEVELOPMENT PLANNING DIVISION.
