Clallam County Shoreline Master Plan Update (CCSMPU) 12/20/15

'Where ever there is interest and power to do wrong, generally wrong will be done.' James Madison

There should be not misunderstanding, the CCSMPU is a product of the WA DOE (Dept. of Ecology). The WA DOE is a surrogate of the WA Democrat Party. The WA Democrat Party is a puppet of the national and global progressive movement/ ideology.

Our environment, our air and water, are the cleanest they have been in 60 years. We have an economic crisis. We do not have an environmental or shoreline crisis. The proposed and imposed CCSMPU changes will make our real economic crisis worse.

The CCSMPU needs to reverse previous unnecessary regulatory govt overreaches. We do not need more ambiguous regulations at this time. The current CCSMPU with Climate Change wording need to be rejected.

Karl Spees - Member of the CCSMPU committee
