SMP Comment on Climate Change

Posted on April 16, 2015 11:42 am by Pearl Rains Hewett [Comment](#)

SMP Comment on Climate Climate

Something NEW has been added to the SMP Update agenda.

The fact is, **CLIMATE CHANGE** is being discussed and presented by Steve Gray, to the members of the Clallam County Planning Commission, **with no mention of the multiple deceptions of politics on climate change.**

The High Court judge ruled that the “apocalyptic vision” presented in the film “ An Inconvenient Truth ” was POLITICALLY PARTISAN and thus not an impartial scientific analysis of CLIMATE CHANGE. In fact it was judged to be a ”POLITICAL FILM”

The judge declined to ban the Academy Award-winning film from British schools, but ruled that it can only be shown with guidance notes to prevent political indoctrination.

The movie is unsuitable for showing to children, and provides no basis for taking policy decisions.

Schools that have shown the movie to children are urged to ensure that the errors listed in this memorandum are drawn to the children’s attention.

It is inconceivable to me that the members of the Clallam County Planning Commission, would let themselves be taken in by the multiple deceptions of politics on CLIMATE CHANGE, while mistakenly believing that they are reacting to something genuine.

And, as usual, the opportunistic out of Towner’s are back in Clallam County, with yet another **POLITICALLY PARTISAN** and thus not an impartial scientific analysis of **CLIMATE CHANGE**. **“SPREADING AND PROMOTING THE ALARMISM AND EXAGGERATION ” MULTIPLE DECEPTIONS OF POLITICS, in Al Gore’s “POLITICAL FILM” “ An Inconvenient Truth ”**

THE “INCONVENIENT TRUTHS” ON THE MULTIPLE DECEPTIONS OF POLITICS

11 Oct 2007 The High Court judge ruled yesterday Al Gore’s environmental documentary An Inconvenient Truth **CONTAINS NINE KEY SCIENTIFIC ERRORS**, a High Court judge ruled yesterday. Judge Michael Burton ruled yesterday that errors had arisen **“IN THE CONTEXT OF ALARMISM AND EXAGGERATION”** in order to support Mr Gore’s thesis on **GLOBAL WARMING**.

The judge ruled that the “apocalyptic vision” presented in the film was POLITICALLY PARTISAN AND THUS NOT AN IMPARTIAL SCIENTIFIC ANALYSIS OF CLIMATE CHANGE.

It is, he ruled, a “POLITICAL FILM”.

35 Inconvenient Truths: The errors in Al Gore’s movie ...

scienceandpublicpolicy.org/.../goreerr...

Science and Public Policy Institute

As many as 35 serious scientific errors or exaggerations, all pointing towards invention of a THREAT THAT DOES NOT EXIST AT ALL, OR EXAGGERATIONS OF PHENOMENA THAT DO EXIST, do not reflect credit on the presenter of the movie or on those who advised him.

The movie is unsuitable for showing to children, and provides no basis for taking policy decisions.

Schools that have shown the movie to children are urged to ensure that the errors listed in this memorandum are drawn to the children’s attention.

Political science **policymakers?** all interest groups share a desire to affect *government* policy to benefit themselves ... to bring pressure to bear on *policy makers* to gain policy outcomes in their favour.

THE HISTORY OF

THE “INCONVENIENT TRUTHS” ON THE SOCIAL PHENOMENA OF MASS HYSTERIA?

It happened the day before Halloween, on Oct. 30, 1938. War of the Worlds: This panic created by *Orson Welles* foreshadowed the age of ... **REVEALED THE WAY POLITICIANS COULD USE THE POWER OF MASS COMMUNICATIONS TO MANIPULATE THE PUBLIC....**

In a prescient column, in the New York Tribune, Dorothy Thompson foresaw that the broadcast revealed the way politicians could use the power of mass communications to create theatrical illusions, **TO MANIPULATE THE PUBLIC.**

“All unwittingly, Mr. Orson Welles and the Mercury Theater of the Air have made one of the most fascinating and important demonstrations of all time,” she wrote.

“THEY HAVE PROVED THAT A FEW EFFECTIVE VOICES, ACCOMPANIED BY SOUND EFFECTS, CAN CONVINCE MASSES OF PEOPLE OF A TOTALLY UNREASONABLE, COMPLETELY FANTASTIC PROPOSITION AS TO CREATE A NATION-WIDE PANIC.

“They have demonstrated more potently than any argument, demonstrated beyond a question of a doubt, the appalling dangers and enormous effectiveness of popular and theatrical demagoguery....

THE “INCONVENIENT TRUTHS” ON THE MULTIPLE DECEPTIONS OF POLITICS

telegraph.co.uk/news/earth/earthnews/3310137/Al-Gores-nine-Inconvenient-Untruths.html

Al Gore’s environmental documentary *An Inconvenient Truth* **CONTAINS NINE KEY SCIENTIFIC ERRORS**, a High Court judge ruled yesterday. Judge Michael Burton ruled yesterday that errors had arisen “in the context of alarmism and exaggeration” in order to support Mr Gore’s thesis on global warming.

But the judge ruled that the “apocalyptic vision” presented in the film was politically partisan and thus not an impartial scientific analysis of climate change. It is, he ruled, a “political film”.

The judge declined to ban the Academy Award-winning film from British schools, but ruled that it can only be shown with guidance notes to prevent political indoctrination.

In the documentary, directed by Davis Guggenheim, the former US vice president and environmental activist calls on people to fight global warming because “humanity is sitting on a ticking time bomb”.

But Judge Michael Burton ruled yesterday that errors had arisen “in the context of alarmism and exaggeration” in order to support Mr Gore’s thesis on global warming.

But the judge ruled that the “apocalyptic vision” presented in the film was politically partisan and thus not an impartial scientific analysis of climate change. It is, he ruled, a “political film”.

Those who let themselves be taken in by the multiple deceptions of politics, news, advertising and public relations, are doomed, like the more gullible members of the radio audience in 1938, to play a role in other people’s dramas, **while mistakenly believing that they are reacting to something genuine.**

At some point in time? Al Gore had a nightmare, very likely from watching the American post-apocalyptic science fiction action *film* “**WATERWORLD**” **too many times.**

WATERWORLD is a 1995 American post-apocalyptic science fiction action *film* This epic science fiction action *film* is set 200 years in the future. The polar ice caps have melted, flooding the continents and creating a giant ocean ...

In 2007 Al Gore turned his nightmare of the American post-apocalyptic science fiction action *film* “**WATERWORLD**”

Into a another American unscientific post-apocalyptic **movie...** “**AN INCONVENIENT TRUTH**”

2007 Remember, the judge ruled that the “**APOCALYPTIC VISION**” presented in the film **WAS POLITICALLY PARTISAN AND THUS NOT AN IMPARTIAL SCIENTIFIC ANALYSIS OF CLIMATE CHANGE**.

THE HIGH COURT JUDGE RULED, “AN INCONVENIENT TRUTH” was A “POLITICAL FILM”.

The polar ice caps are melting, **Sea level “rising 6 m”**

Mr Gore claims that a sea-level rise of up to 20 feet would be caused by melting of either West Antarctica or Greenland “in the near future”. **The judge said: “This is distinctly alarmist** and part of Mr Gore’s “wake-up call”. He agreed that if Greenland melted it would release this amount of water – “but only after, and over, millennia“.”**THE ARMAGEDDON SCENARIO he predicts, insofar as it suggests that sea level rises of seven metres might occur in the immediate future, is not in line with the scientific consensus.**

The bottom line

The judge declined to ban the Academy Award-winning film from British SCHOOLS, but ruled that it can only be shown with guidance notes TO PREVENT POLITICAL INDOCTRINATION.

It is inconceivable to me that the members of the Clallam County Planning Commission, would let themselves be taken in **by the multiple deceptions of politics on CLIMATE CHANGE, while mistakenly believing that they are reacting to something genuine.**

And, that the Clallam County Planning Commission would make decisions affecting the citizens and the school children of Clallam County without reading the following.

35 Inconvenient Truths: The errors in Al Gore’s movie ...

scienceandpublicpolicy.org/.../goreerr...

Science and Public Policy Institute

Oct 19, 2007 – *Al Gore’s* spokesman and “*environment* advisor,” Ms. Kalee Kreider, begins by saying that the film presented “thousands and thousands of facts ...

<http://scienceandpublicpolicy.org/monckton/goreerrors.html>

” Readers of the long list of errors described in this memorandum will decide for themselves whether Mr. Gore was acting in good faith. However, in this connection it is significant that each of the 35 errors listed below misstates the conclusions of the scientific literature or states that there is a threat where there is none or exaggerates the threat where there may be one. **All of the errors point in one direction – towards undue alarmism.** Not one of the errors falls in the direction of underestimating the degree of concern in the scientific community. The likelihood that all 35 of the errors listed below could have fallen in one direction purely by inadvertence is less than 1 in 34 billion.

As many as 35 serious scientific errors or exaggerations, all pointing towards invention of a threat that does not exist at all, or exaggerations of phenomena that do exist, do not reflect credit on the presenter of the movie or on those who advised him.

The movie is unsuitable for showing to children, and provides no basis for taking policy decisions. Schools that have shown the movie to children are urged to ensure that the errors listed in this memorandum are drawn to the children's attention.

A concerned American Grandmother
