**Over the past twenty years (from 1946?) experiments** have been conducted on

weather modification, particularly on the effects of seeding clouds with

such materials as – silver iodide crystals.

**1966 There MUST be regulation and control of weather modification activities, especially as those activities increase in magnitude and frequency and become international in scope.**

**1966 This is required ESPECIALLY TO PROVIDE A MECHANISM FOR PROTECTION AGAINST HARMFUL CONSEQUENCES OF WEATHER MODIFICATION ACTIVITY but also to permit valid experimentation**

**WEATHER MODIFICATION ICAS Report No. 10a November 1966**

A Recommended National Program In **WEATHER MODIFICATION**

A Report to the Interdepartmental Committee for Atmospheric Sciences

by Homer E. Newell

Associate Administrator for Space Science and Application

National Aeronautics and Space Administration Washington, D.C.

Interdepartmental Committee for Atmospheric Sciences

The gradually accumulating evidence of positive results from efforts at weather modification led the Committee on Atmospheric Sciences of the National Academy of Sciences, in **November 1963**, to appoint a Panel on Weather and Climate Modification “to undertake a deliberate and thoughtful review of the present status and **activities** in this field.

**On June 16, 1964, the Director of the National Science Foundation announced the appointment of a Special Commission on Weather Modification. In its review of the field, the Commission activated seven subgroups to study the physical, biological, statistical, social, international, legal and legislative, and administration and funding aspects of weather and climate modification.**

This is the comment that prefaced the above.

The document contained below is very damning and revealing, I located it in the NASA archives in late October of 2012. It should be a stark wake up call **for any that still deny the existence of massive covert weather modification programs which are coordinated by various governments around the world.**

**This file report outlines in great detail the existence of expanding US weather modification programs as far back as 1956, a full decade earlier than the date of the document in question.** A “special commission” is outlined in this document to coordinate the multiple governmental agencies involved with US weather modification programs as well as independent contractors and universities which the report also mentions. It covers the “management” of international impacts, legal and social ramifications, species disruptions, biological consequences, etc.

A rapidly increasing mountain of data makes ever more clear that almost none of us alive today have known completely natural weather. **That massive covert government programs have been playing “God” with the biosphere for well over 60 years, perhaps even longer.** In recent years the scope and scale of these devastating weather modification programs has been ramped up so much that the entire climate system and biosphere is now hanging in the balance.

The lethal nature of the ongoing “geoengineering” programs can not be overstated. Life on our planet is in freefall for many reasons, but mathematically speaking climate engineering is the greatest assault of all against life on Earth.

**Documents like the one linked below need to be shown to those that continue to deny the ongoing climate engineering reality.** With each passing day radical fluctuations in weather continue to accelerate as a direct result of the ongoing geoengineering insanity. Geoengineering must be brought into the light of day and to a halt. Those responsible for the climate engineering programs should be seen criminals that have participated in ecocide and genocide. **The corporate media and the “meteorologists” that serve them must also be exposed FOR THEIR PART IN HIDING THE AEROSOL SPRAYING ASSAULT from public view. Each and every one of us are needed to assist in the most critical effort to reach critical mass of awareness, lets make every day count in this battle.**

**WHAT DID HAARP, THE US GOVERNMENT ”HIGH FREQUENCY “ACTIVE AURORAL” RESEARCH PROGRAM” ... DO TO OUR NATURAL WEATHER?**

**Its purpose, intent, how long it was held secret?**

**WHAT WENT WRONG WITH HAARP?**

**Why did the U.S. government SHUT it down?**

**WHERE THERE HARMFUL CONSEQUENCES OF WEATHER MODIFICATION ACTIVITY?**

- 1. What did HAARP do?**
  - 2. Did HAARP change the humidity?**
  - 3. Did HAARP change weather?**
  - 4. Did HAARP change the climate?**
  - 5. Did HAARP change the JET STREAM?**

## APRIL 19, 2015 WHAT DID HAARP, “HIGH FREQUENCY “ACTIVE AURORAL” RESEARCH PROGRAM” ... DO TO OUR NATURAL WEATHER?

### About that “ACTIVE AURORAL” ?

By definition, AURORAL REFERS TO THAT DISPLAY—you might describe it as a show of auroral light. The best known aurora is the aurora borealis, otherwise known as the northern lights.

**THE AURORA BOREALIS A NATURAL ELECTRICAL PHENOMENON** characterized by the appearance of streamers of reddish or greenish light in the sky, **usually near the northern or southern MAGNETIC pole**.

Very wavy jet-stream patterns have been occurring more often since the 1990s, Francis says, and are now affecting **weather** around the northern hemisphere. This mid-February cold snap, for example, that has left millions of people waking up to below-zero and single-digit temperatures, might not be as deep as some southward dips, called troughs, in **the jet stream**. But the overall pattern has been around for weeks, and is also responsible for Boston’s record snowfall this winter and the worsening drought in western states.
