RE: Public Comment - Clallam County Shoreline Master Program Update

My first installment to follow.  
Karl - CAPR 13

### Article 1. Section 1. Of the Washington State Constitution

**Political Power: All political power is inherent in the people, and governments derive their just powers from the consent of the governed, and are established to protect and maintain individual rights.**

Group

3 June 2011 appears to be a deadline for the public input to the Shoreline Master Program (SMP). It is my intention to write up and circulate a series of comments. If you would like to critique or submit your own comments to be submitted, I would appreciate it. This is a time we need all hands on deck. Sadly the SMP has already been decided, the Shoreline Advisory committee is a formality to appear to follow the spirit of the law. I will attempt to shine the light of day on some of this abuse. Repetition of points that resonate with you are important. A single good idea will be ignored. **If a number of us submit the same comment, it will carry some weight. I am skeptical of these people and this exercise. Unless we have given our input and it is ignored will we have recourse at some future date when governmental sanity is restored. Please look out for our rights and freedoms before they are eroded and lost.**

Karl Spees - CAPR13
