Subject: SMP just new Version of Death panel

SMP'S are nothing more than a new version of a death panel and a method for which to take property rights of state Registered/ Deeded and "taxed" owners. Nothing written in the Deed about this "intrusion/usurpation" under state law. Sarah Palin was right when she used the phrase death panels. A Panel of displaced unaffected "paid to hype" laboratory specialists with political/money ties, making decisions that belong in the hands of the individual .

The three branches of government to govern ourselves has served the people through time very well indeed and is based on constitutional principles not pseudo-scientific data and panels that are dubious at best. Hey, folks, where is the "double blind study" and who authorized the study at taxpayer expense in the first place. Did we the people of the State of Washington call upon Department of Ecology through the use of our elected Representatives to make decisions in our stead, or for "THE PEOPLE"?.... Not that I can see.....Nope, Nada,zip,zilch,zero !!!
The usurpation of the Constitution of the state of Washington is all I see here. The Q and A SMP panels are set up for a fait accompli Kabuki dance to placate the citizens who have deeded property rights, all, while "taking" property without due process and without compensation. Property deeded in the Great State of Washington is not worth the paper it is written on. The rest of the country needs to know that; "so put a disclaimer on all deeds hence forth "subject to change without notice or constitutional process" Buyer beware!!!! This is transparency!!!!
