Subject: SCIENTIFIC EVIDENCE

Comment and Recommendation for SMP compliance and update

SCIENTIFIC EVIDENCE

Many of the problems that were the **REASON** that the **public voted for the original Shore Line Management Act** have already been corrected.

"Scientific Evidence"

In the 1970's the Mills in Port Angeles made the paint peel off of your house and cars. Your mouth tasted like sulfur if you were out in your yard, there was a yellow line of pollution/discharge from the mills that spread across the horizon from the West to the East.

"Scientific Evidence"

They showed us the aerial photos of raw sewerage dumping off of the land into lakes and marine waters that extended for miles in WA State.

"Scientific Evidence"

"They tested the air and the water, huge companies had created Industrial pollution, air quality, smog, exhaust emission, big burn piles, illegal chemical discharge done by the big chemical industries and the livestock stench and pollutants seeping or dumped into water sources and air in WA State.

How many of the above "Scientific Evidence" problems still exist in Clallam County?

Run out of Water?

Ecclesiastes 1:7

All the rivers run into the sea; yet the sea is not full; unto the place from whence the rivers come, thither they return again

"Historical Scientific Evidence"

Drift cells?

Ecclesiastes 1:6

The wind blows to the south and turns to the north; round and round it goes, ever returning on its course.

"Historical Scientific Evidence"

By her own admission and armed with **\$1,550,000.00 worth of "Scientific Evidence"** Margaret Clancy has stated, many times, that Clallam County is **clean and unspoiled**.

Clallam County Commissioners and the Planning Dept. have kept **Clallam County clean and unspoiled** with the current SMP. The critical areas and buffer zones used in our county **are** recognized on the SMP.

What should be changed for SMP Update? **NOTHING!**

Don't give more control over Clallam County to the APPOINTED DOE.
