

# STRAIT OF JUAN DE FUCA

## ELEVATION REFERENCE MARKS

MARK	ELEVATION	DESCRIPTION OF LOCATION
RM34	328.10	Top of upstream end of culvert under Crescent Beach Road. Culvert is the first culvert downstream of State Highway 112 crossing over Whiskey Creek Tributary. Established by Western Aerial Surveys, Inc.
RM96	5.24	U.S. Coast and Geodetic Survey standard disk, stamped "3 1926," set in ledge on the west side of Crescent Bay 0.2 mile from Crescent Beach Road, 360 feet north of boat launching facility, 30 feet north of sand beach, and 20 feet north of an iron eye bolt set on a slant in the rocky point.
RM97	15.37	Top of steel fence post at the northwest corner of the Crescent Beach Memorial Cemetery, located 0.8 mile east along Crescent Beach Road from junction with ACI Park access road. Fence post is 7.5 feet west of west gate on fence. Established by CH2M HILL, INC.
RM98	13.14	Top of 2-inch-diameter round-head bolt in the top of wooden curb at the northwest corner of Crescent Beach Road bridge over Salt Creek, 2.5 feet east of west end of curb. Established by CH2M HILL, INC.

### EXPLANATION OF ZONE DESIGNATIONS

ZONE	EXPLANATION
A	Areas of 100-year flood; base flood elevations and flood hazard factors not determined.
A0	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.
AH	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1-A30	Areas of 100-year flood; base flood elevations and flood hazard factors determined.
A99	Areas of 100-year flood to be protected by flood protection systems under construction; base flood elevations and flood hazard factors not determined.
B	Areas between limits of the 100-year flood and 500-year flood; or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood. (Medium shading)
C	Areas of minimal flooding. (No shading)
D	Areas of undetermined, but possible, flood hazards.
V	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1-V30	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

### NOTES TO USER

This map is for use in administering the National Flood Insurance Program; it does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all planimetric features outside Special Flood Hazard Areas.

Areas of special hazard (100-year flood) include Zones A, A1-30, AE, AH, AO, A99, V, V1-30 AND VE.

Certain areas not in the Special Flood Hazard Areas (zones A and V) may be protected by flood control structures.

Coastal base flood elevations apply only landward of the shoreline shown on this map.

For adjoining map panels, see separately printed Index to Map Panels.

INITIAL IDENTIFICATION:  
 JANUARY 24, 1978

FLOOD HAZARD BOUNDARY MAP REVISIONS:  
 APRIL 4, 1978

FLOOD INSURANCE RATE MAP EFFECTIVE:  
 NOVEMBER 5, 1980

FLOOD INSURANCE RATE MAP REVISIONS:  
 Map revised February 16, 1983 to change corporate limits, flood boundaries, and zone designations.

Map revised December 5, 1989 to update corporate limits, to decrease base flood elevations, to increase base flood elevations, to change base flood elevations, to add special flood hazard areas, to delete special flood hazard areas, to change special flood hazard areas, to delete special flood hazard areas, to change zone designations, to update roads and road names, to reflect updated topographic information and to change floodway.

To determine if flood insurance is available in this community, contact your insurance agent, or call the National Flood Insurance Program at (800) 638-6620.
