

STRAIT OF JUAN DE FUCA

ELEVATION REFERENCE MARKS

REFERENCE MARK	ELEVATION (FT. NGVD)	DESCRIPTION OF LOCATION
RM82	32.00	A nail and shiner in 12-inch crossmember of first downstream east bank abutment on Bridge Lane bridge over Morse Creek. Established by Western Aerial Surveys, Inc.
RM83	76.49	A disk in the top of the northwest end of the downstream concrete guardrail curb of U.S. Highway 101 bridge over Morse Creek. Established by U.S. Coast and Geodetic Survey.
RM84	120.19	The first bothhead on upstream left bank deck rail on Four Seasons Road bridge over Morse Creek. Established by Western Aerial Surveys, Inc.
RM86	55.49	Top downstream left culvert in Ennis Creek at crossing 900 feet upstream of sewage plant. Established by U.S. Coast and Geodetic Survey.
RM100	6.12	Top southwest corner of concrete footing for green electric box, located at the northerly end of Montgomery Road, near the southwest property corner of the first residence east of Morse Creek and north of Montgomery Road, 12 feet west of southwest corner of tennis court, at end of rail fence. Established by CH2M HILL, INC.

KEY TO MAP

EXPLANATION OF ZONE DESIGNATIONS

ZONE	EXPLANATION
A	Areas of 100-year flood; base flood elevations and flood hazard factors not determined.
A0	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.
AH	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1-A30	Areas of 100-year flood; base flood elevations and flood hazard factors determined.
A99	Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.
B	Areas between limits of the 100-year flood and 500-year flood; or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood. (Medium shading)
C	Areas of minimal flooding. (No shading)
D	Areas of undetermined, but possible, flood hazards.
V	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1-V30	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

NOTES TO USER

This map is for use in administering the National Flood Insurance Program; it does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all planimetric features outside Special Flood Hazard Areas.

Areas of special flood hazard (100 year flood) include Zones A, A1-30, AE, AH, AD, A99, V, V1-30 and VE.

Certain areas not in the Special Flood Hazard Areas (Zones A and V) may be protected by flood control structures.

Coastal base flood elevations apply only to landward of the shoreline shown on this map.

For adjoining map panels, see separately printed Index to Map Panels.
