

ELEVATION REFERENCE MARKS

REFERENCE MARK	ELEVATION (FT. NGVD)	DESCRIPTION OF LOCATION
RM76	353.02	Spike in power pole southwest corner of Calawah Way and road leading south 2800 feet east of southwest corner of Forks Cemetery on Calawah Way. Established by Western Aerial Surveys, Inc.
RM77	300.00	A disk at the first bridge over Elk Creek upstream of the confluence of Calawah River and Elk Creek, in the upstream left-bank corner of curb. Established by Clallam County.
RM78	374.68	Railroad spike in 18-inch tree on south side of private road 300, 255 miles east of U.S. Highway 101. Established by Western Aerial Surveys, Inc.
RM79	290.63	Railroad spike in power pole in northwest corner of private road 300 bridge over North Fork Calawah River at its mouth. Established by Western Aerial Surveys, Inc.
RM80	373.32	Spike in power pole, 300 feet east of Y east of Elk Creek bridge. Established by Western Aerial Surveys, Inc.
RM81	390.73	Railroad spike in fir tree, 1 mile upstream on Calawah River from the confluence with North Fork Calawah River on private road 300, 400 feet west of road mile 5 sign. Established by Western Aerial Surveys, Inc.

EXPLANATION OF ZONE DESIGNATIONS

ZONE **EXPLANATION**

A Areas of 100-year flood; base flood elevations and flood hazard factors not determined.

A0 Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.

AH Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.

A1-A30 Areas of 100-year flood; base flood elevations and flood hazard factors determined.

A99 Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.

B Areas between limits of the 100-year flood and 500-year flood; or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood. (Medium shading)

C Areas of minimal flooding. (No shading)

D Areas of undetermined, but possible, flood hazards.

V Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.

V1-V30 Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

NOTES TO USER

This map is for use in administering the National Flood Insurance Program; it does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all planimetric features outside Special Flood Hazard Areas.

Areas of special flood hazard (100-year flood) include Zones A, A1-30, AE, AH, AD, A99, V, V1-30 AND VE.

Certain areas not in the Special Flood Hazard Areas (zones A and V) may be protected by flood control structures.

Coastal base flood elevations apply only landward of the shoreline shown on this map.

For adjoining map panels, see separately printed Index to Map Panels.

INITIAL IDENTIFICATION:
JANUARY 24, 1976

FLOOD HAZARD BOUNDARY MAP REVISIONS:
APRIL 4, 1978

FLOOD INSURANCE RATE MAP EFFECTIVE:
NOVEMBER 5, 1980

FLOOD INSURANCE RATE MAP REVISIONS:
Map revised December 5, 1989 to update corporate limits, to decrease base flood elevations, to increase base flood elevations, to change base flood elevations, to add base flood elevations, to add special flood hazard areas, to change special flood hazard areas, to delete special flood hazard areas, to change zone designations, to update roads and road names, to reflect updated topographic information and to change footcreeks.

To determine if flood insurance is available in this community, contact your insurance agent, or call the National Flood Insurance Program, at (800) 638-6629.
