Accomplishments in 2007:

- Recruited and trained six new deputies to fill vacancies and retiring deputies.
- Major personnel shortfalls came upon the patrol division in 2007. As a result, the detective sergeant, a full time detective and the west end detective were all reassigned to patrol. This left two full time detectives to deal with all major crimes referred to CIB without the benefit of a daily supervisor. Though many cases remain active at this time, the flow of case referrals handled has been managed. It is likely that year end clearance rates will be affected by this.
- Establishment of a criminal case tracking system that allows quick assignment and monitoring of cases.
- Created a Volunteer Operations Manual and held Volunteer Orientation sessions.
- Worked with WASPC to link the Jail records to the Jail Booking Reporting System (JBRS). This allows all criminal justice agencies to query county and state jail booking records.
- Worked with the County I.T. staff to put the Jail Register on-line for public viewing.
- Implemented digital cameras and recorders for all operations staff.
- Re-aligned administrative support staff for increased efficiencies within the administrative section.
- Completed cross-training of Support Services Division staff for increased coverage due to absences.
- Implemented department training records in the AEGIS database.
- Designed and printed new commission cards and business cards for all personnel.
- Re-wrote and implemented an updated sex offender policy.
- Maintained full staffing level of Corrections Officer personnel.
- Installed razor wire perimeter fence around the Jail, along with outdoor lighting for the same area.
- Gated the only access to Lincoln Street maintenance parking lot for better Jail security.
- Reconfigured Jail Dorms for better viewing, officer safety, and inmate secure living.
- Jail Sergeant pass-on-log developed and implemented for increased Jail safety
