Notice of Addendum

The Clallam County Board of Commissioners and the State of Washington Emergency Management Division have reviewed the Hazard Mitigation Plan and recommend making the following additions and clarifications.

1. Develop a glossary for acronyms.
2. The October 2003 event flooded areas that traditionally do not flood. These should be noted in the plan.
3. Chronic flood hazard areas such as Kinkade Island, Bogachiel, Rivers End should be specifically identified as chronic flood hazard areas, and mitigation projects proposed.
4. Provide additional discussion of the unstable bluff hazard.
5. Provide supplemental discussion of the life and property issues associated with the unstable bluffs, as well as the chronic flood hazard areas.
