

North Olympic Waste Reduction Program

The residents of Port Angeles, Sequim, Forks, and the greater Clallam County area are working together to **reduce** waste, **reuse** products, and **recycle** what we have left.

We have to pay to get rid of our waste whether it is buried in the ground or recycled. Therefore our first goal is to **reduce** the amount of waste generated. Avoid single use (disposable) products. Choose items with less packaging when you shop.

In Clallam County there are many opportunities to **reuse** items – through garage sales, swap meets, resale stores, etc. The website www.2good2toss.com is a free online material exchange for county and city residents.

Recycling involves collection, separation, transportation, and manufacture. Many people expect recycling to be free, but there are associated costs, especially in rural areas. Recycling usually costs less than garbage.

The manufacture of products made from recycled materials uses less energy and natural resources. Think of recycling as a way to reduce pollution and save natural resources... so buy products made from recycled materials!

Appliances: Advertise in the free classified section of local newspapers. Appliances are recycled at the Regional Transfer Station. There is an additional environmental fee for refrigerators and freezers. Please call for rates.

Auto Oil and Antifreeze: Take to a self haul site (listed on other side).

Building materials: Visit habitatclallam.org or aroundagainstore.org for a list

Batteries: Visit call2recycle.org or these sites-
Automobile: See self haul chart on the other side.
Rechargeable (in computers, cell phones, video cameras) May explode or catch fire in regular trash. Dispose of safely at Moderate Risk Waste Facility, Home Depot, Around Again.
Button (in watches and cameras): Recycle at your local retailer.
Alkaline: (AA, C, D, etc): Safe to dispose in the trash if NOT lithium (see rechargeable above).

Bicycles: Sell or give away through reuse websites or Goodwill; may be recyclable where metal is recycled.

Cassettes, vinyl records, DVD's: Donate to local thrift store or the public library. Re-sell at music stores.

Cardboard moving boxes: Give away through the free classified ads in the local newspaper or radio. Small quantities of cardboard are picked up curbside in Port Angeles and Sequim, or take to Transfer Station drop boxes.

Catalogs: Contact sender to request removal from mailing lists. Recycle curbside with mixed papers.

Cell phones: Recycle at the same locations that take rechargeable batteries. (See "Batteries" above.) Donate to police stations for program use.

Cleaners, solvents, pesticides, herbicides: Take to the Moderate Risk Waste Facility at the Regional Transfer Station. No charge. Visit the reuse area and bring home useful household items such as plant fertilizer, paint, paint thinner and other products from previous customers.

Clothing and Textiles: Take to local re-sale shops or organizations that distribute clothing. Clothing collection boxes, sponsored by for profit companies, may be found throughout the county. Materials collected at these boxes are shipped out of the county.

Recyclopedia

Computers: Free recycling at Goodwill in Port Angeles and Sequim. For more information go to ecyclewashington.org or 1-800-RECYCLE.

Fluorescent bulbs and tubes: Compact fluorescent lights (CFLs), fluorescent tubes, and high intensity discharge lights (HIDs) can be recycled at Around Again, Thurman Supply, and Swain's. Go to lightrecyclewa.org.

Food waste: Compost at home with your garden clippings. Visit Clallam.net for resources on on-site composting or food donation.

Furniture: Call first before donating to local thrift stores. Free classified advertising in your local newspaper to give away. Post on 2good2toss.com.

Gasoline: Take small quantities to the Moderate Risk Waste Facility at the Regional Transfer Station.

Junk mail: Remove your name from mailing lists by contacting the company directly or by writing to Mail Preference Service, The Direct Marketing Association, PO Box 282, Carmel, NY 10512 or dmachoice.org

Medication: For a list of Secure Medicine Return drop box locations in Clallam County or to learn about the mail-in option visit: www.clallam.net/hhs/environmentalhealth/SecureMeds.html or call 360-417-2358.

Metals: Ferrous (steel) and non-ferrous (aluminum, lead, copper, brass, stainless steel, insulated wire, radiators): Take to scrap metal dealers or self-haul to the Regional Transfer Station metal pile, fees apply.

Recycle Right. Know what to throw and only include items that are clean, empty and dry.

Paint, oil: Take to the Moderate Risk Waste Facility. Dispose of empty paint cans with garbage. Latex paint must be solidified and disposed with garbage. Statewide [paint stewardship program](#) will be launched in late 2020.

Plastic shopping bags and film: Find your nearest plastic bag drop off location at plasticfilmrecycling.org. Food banks will take clean bags for reuse. Don't forget to bring your reusable bag!

Packing material: Take clean packing "peanuts" or packing foam to local mailing centers for reuse (call first). Molded packing material is not accepted and must be disposed with garbage.

Printer and copy supplies: Ink jet and toner cartridges should be returned to the retailer for recycling.

Telephone books: Place with mixed papers for recycling. You can stop delivery by contacting the publisher. www.yellowpagesoptout.com

Televisions: Donate to local charities/thrift shops or post on 2good2toss.com. Recycle at Goodwill in Port Angeles or Sequim. These businesses are participating in the [statewide recycling program](#).

Tires: Recycle at your local tire dealer when you buy new tires (most charge a small fee). Otherwise take to the recycling storage area at the Regional Transfer Station, standard disposal fees apply. (No commercial loads accepted.)

Household Hazardous Waste accepted at the **Moderate Risk Waste Facility** at the **Regional Transfer Station** Port Angeles Sat 11-4

no charge to residents
