

Developing Circles of Support

Circle of Friends is an innovative pilot project based on the principles that 1) every person has assets and something to give, 2) inclusion is possible, and 3) we must weave communities of care. This workshop will show ways in which families can develop circles of support and personal safety nets around their loved ones.

Marie Campbell, Coordinator of Circle of Friends in Clallam County, has 20+ years experience in human services, including working with people with disabilities, their families, and seniors. The CARE Partnership of Clallam County has developed this project in partnership with the PLAN Institute.

Wednesday, January 14, 2009
