

Quality Jobs & Employment Services for People with the Most Significant Disabilities

With Jo-Ann Sowers, Ph.D.

Sponsored by Clallam County Health and Human Services

Please join us for an intensive workshop on how to plan, seek out, design, and support quality jobs for people with even the most significant disabilities. Topics to be explored and explained: self-determined employment planning, job development in a recession, how to work with employers, what to say, customized job development, setting up natural supports from the beginning, and how to support employers and coworkers. **If you have been struggling with providing employment services for people with complex challenges, you will not want to miss this!**

Jo-Ann Sowers for over 30 years has been at the forefront of the supported employment field nationally. Throughout her career she has continuously provided hands-on planning, job development, and natural support building activities with people with the most significant disabilities. She has been published extensively in both books and articles. Her work focuses on self-determination, employment, and education.
