

Bidders Conference

Behavioral Health RFP 2022

questions accepted via email to joppelt@co.clallam.wa.us

questions received by September 3, 2021

1. Will the county except bids from organizations who provide virtual, online evidence based prevention and intervention programming directly to the affected individuals, in other words fully online virtual prevention and intervention programs?
 - a. Yes. The county will accept proposals providing online/virtual programs, the funds requested need to be clearly linked to serving participants in Clallam County.
2. Are you looking for a single vendor to cover all the needs listed in the RFP? Or are you open to multiple vendors?
 - a. We are looking for multiple contractors. Proposed programs are to target one of the four funding priorities. We generally contract 10 to 20 projects in a single calendar year.
3. Please explain matching/in-kind funds.
 - a. Example: a project costs \$10k in total and the program already has \$4k from another grant to cover a portion of the proposed total cost, the requested funds would be \$6k and the matching \$4k. In the budget section bidders are to specify which portions of their project will be covered by matching/in-kind funds and which are requested by this RFP.
